PROFILE

Software Development Engineer specializing in Java Full Stack development, delivering secure, high-volume enterprise FinTech systems. Deep expertise in Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, and microservice architecture over MySQL and PostgreSQL. Re-architected monoliths into Spring Boot microservices serving 2 million+ users, engineered wallet and ledger services settling over 10 billion INR daily, and hardened enterprise APIs with JWT, RBAC, and device binding. Holds latency down at peak load through SQL indexing, cache tuning, and Dockerized delivery.

CORE TECHNOLOGY

Core Java & Spring: Java, Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Spring Cloud, Microservices

APIs, Security & UI: RESTful APIs, JWT authentication, RBAC, device binding, API versioning, React.js, JavaScript (ES6+), HTML5, CSS3

Data & Messaging: MySQL, PostgreSQL, transaction management, indexing, query tuning, Redis, Apache Kafka

Build & DevOps: Maven, Gradle, Git, GitHub, Docker, CI/CD, Postman, Spring Boot Actuator, Prometheus, Grafana

EXPERIENCE

Software Development Engineer — *CSC e-Governance Services India Ltd. (MeitY, Government of India)*

Ministry of Electronics & Information Technology, Govt. of India

12/2023 – PRESENT | New Delhi, India

- Re-architected monolithic e-governance systems into **Java** and **Spring Boot** microservices, improving service reliability and deployment speed for **2 million+ active users**.
- Architected transaction orchestration services for AEPS, MATM, and VATM platforms on **Spring Boot**, sustaining **500,000+ daily transactions** at a **99% success rate**.
- Hardened enterprise APIs with **Spring Security**, **JWT** authentication, and role-based access control (**RBAC**), adding device binding and OTP retry policies.
- Engineered wallet and ledger services with **Spring Data JPA** and **Hibernate**, settling over **10 billion INR** in daily transaction value with consistent balances.
- Optimized **MySQL** and **PostgreSQL** transactions and search queries through indexing and cache tuning, cutting read/write latency by **45%**.
- Established event-driven communication between microservices with **Apache Kafka**, lifting asynchronous processing throughput by **35%**.

Freelance Software Engineer — *Workforce Telemetry & Operations*

Real-Time Telemetry & Geofencing Platform

06/2023 – 11/2023 | Remote, India

- Built a real-time workforce tracking platform on **Java**, **Spring Boot**, and **React.js**, serving **1,000+ active field agents**.
- Delivered a responsive map-based dashboard in **React.js** with **Ant Design**, streaming live coordinates from Spring Boot WebSocket endpoints and cutting dashboard latency by **30%**.
- Secured the operations API with **Spring Security** and **JWT**, enforcing Admin, Supervisor, and Employee role boundaries across **100+ client accounts**.

SELECTED PROJECTS

Enterprise Authentication & Authorization Service

Java / Spring Boot / Spring Security / JWT / Hibernate / MySQL

Spring Security service handling user registration, password hashing, JWT issuance and validation, and role-mapped access control across protected REST routes.

Himalayan Edges Commerce Platform

Java / Spring Boot / Spring Data JPA / MySQL / AWS / PWA

PWA-enabled e-commerce platform on Spring Boot REST services with modular controllers and normalized MySQL schemas, load-verified at 500+ concurrent users.

Attendance Management & Reporting Platform

Java / Spring Boot / Spring Data JPA / MySQL / REST APIs

Spring Boot service exposing REST endpoints for student registration, daily attendance logging, and scheduled Excel report generation, cutting manual record-keeping by 70%.

Wallet & Transaction Ledger Service

Java / Spring Boot / Spring Data JPA / Hibernate / MySQL / Redis

Wallet and ledger service built on Spring Data JPA and Hibernate, using managed transaction boundaries and indexed MySQL schemas to keep balances consistent under concurrent settlement.

EDUCATION

Bachelor of Technology (B.Tech.) | Kanpur Institute of Technology, Kanpur, UP

2019 - 2023

CERTIFICATIONS

Database Systems & SQL Certification
Data Structures & Algorithms Certification
IIT Kanpur Cyber Security Certification
Advanced MERN Stack Developer Certification

ACHIEVEMENTS

- Graduated with First Class Honors, maintaining top academic rank.
- Earned a 4-Star Gold Badge in SQL on HackerRank.
