CORE SKILLS

FRONTEND

React.js, Next.js, Redux Toolkit, ES6+, TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap

BACKEND & APIS

Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC, WebSockets, API versioning

DATA & MESSAGING

MongoDB, Mongoose, Redis cache, database schema design, indexing, query optimization

TOOLS & CLOUD

Git, GitHub, Docker, Postman, CI/CD pipelines, GitHub Actions, AWS S3

EDUCATION

B.Tech.

Kanpur Institute of Technology

Kanpur, UP | 2019 - 2023

CERTIFICATIONS

GeeksforGeeks MERN Stack Certification

Coding Ninjas DBMS Certification

Coding Ninjas DSA Certification

IIT Kanpur Prutor Cyber Security Certification

PROFILE SUMMARY

Software Development Engineer specializing in the MERN Stack, with a track record of building secure, high-scale FinTech and transaction tracking platforms. Expert in React.js, Next.js, Redux Toolkit, Node.js, Express.js, and MongoDB. Proven experience in optimizing database queries, building real-time dashboards via WebSockets, and migrating monoliths to high-performance Node microservices. Reduced transaction failure rates and biometric login latency by implementing robust authentication and asynchronous processing pipelines.

EXPERIENCE

Software Development Engineer

- CSC e-Governance Services India Ltd. (MeitY, Government of India)

Ministry of Electronics & Information Technology, Govt. of India

12/2023 - PRESENT | New Delhi, India

- Re-architected monolithic web portals into scalable **Node.js** and **Express.js** microservices, improving deployment speeds and fault isolation for **2 million+ active users**.
- Built real-time location tracking and transaction monitoring dashboards using **React.js**, **Redux Toolkit**, and **WebSockets**, tracking **500,000+ daily transactions**.
- Integrated third-party UPI and XML payment APIs using Node.js REST controllers, achieving **~80% transaction success rates** for AEPS and MATM services under peak loads.
- Implemented secure authentication mechanisms using **Redis** and **JWT**, incorporating device binding and OTP security, reducing unauthorized access attempts by 99.9%.
- Tuned **MongoDB** database schemas using indexing, sharding, and Mongoose query optimizations, resulting in a **40% reduction** in database response times and query latency.
- Established automated CI/CD deployment pipelines using **Docker**, **Git**, and **GitHub Actions**, streamlining container deployments.

Freelance Software Engineer

- Workforce Telemetry & Operations

Real-Time Telemetry & Geofencing Platform

06/2023 - 11/2023 | Remote, India

- Designed and developed a real-time workforce tracking application utilizing **React.js**, **Node.js**, **Express.js**, and **MongoDB**, serving **1,000+ active field agents**.
- Developed an interactive map tracking interface using **React.js** and **Ant Design**, reducing UI load times by 30% and updating status via WebSockets.
- Managed frontend state and query caching using **Redux Toolkit** and **React Query**, reducing redundant API calls by **45%**.

SELECTED PROJECTS

MERN FinTech & E-commerce Platform

A collection of full-stack web applications featuring secure user authentication, interactive dashboards, and REST APIs built with React, Node, Express, and MongoDB.

STACK: React.js / Node.js / Express.js / MongoDB / JWT / Redux

Himalayan Edges Website Development

Engineered an e-commerce platform using the MERN stack with PWA features, hosted on AWS, increasing page load speeds and client usage by 30%.

STACK: React.js / Node.js / Express.js / MongoDB / PWA / AWS S3

Facial Recognition Attendance Dashboard

Developed an automated student attendance tracking system integrating a Python face recognition script (OpenCV and LBPH) with a Node.js/Express backend API and a React dashboard.

STACK: React.js / Node.js / Express.js / Python / OpenCV / MySQL

Traveling Portal & Landing Page

A fully responsive, modern front-end landing page for a travel agency built with HTML, CSS, and Bootstrap layouts, featuring interactive itineraries.

STACK: HTML5 / CSS3 / JavaScript / Bootstrap

ACHIEVEMENTS

- Graduated with First Class Honors, maintaining top academic rank.
- Earned a 4-Star Gold Badge in SQL on HackerRank.
