

AKHILESH KUMAR MISHRA

MERN STACK DEVELOPER | REACT.JS · NODE.JS · EXPRESS.JS · MONGODB

+91 88580 45785 | makhileshkumar1@gmail.com | linkedin.com/in/akhilesh-kumar-mishra | github.com/GitHub-akhilesh

EXPERIENCE

Software Development Engineer

CSC e-Governance Services India Ltd. (MeitY, Government of India)

Ministry of Electronics & Information Technology, Govt. of India

12/2023 – PRESENT | New Delhi, India

- Split a monolithic e-governance portal into **Node.js** and **Express.js** microservices, cutting deploy times and keeping one bad release from reaching all **2 million+ users**.
- Built the real-time transaction and location dashboards in **React.js** and **Redux Toolkit**, pushing WebSocket updates across **500,000+ daily transactions**.
- Took AEPS and MATM settlement to a **99% success rate** under peak load, adding retry and reconciliation handling to the UPI and XML payment integrations.
- Locked down authentication with **JWT** and **Redis**-backed sessions, device binding and OTP throttling, cutting unauthorized access attempts **99.9%**.
- Cut **MongoDB** response times **40%** — compound indexes, sharding, and a rewrite of the worst **Mongoose** aggregations.
- Automated build, test and container delivery for all **3** payment platforms with **Docker** and **GitHub Actions**, retiring a manual release process.

Freelance Software Engineer

Workforce Telemetry & Operations

Real-Time Telemetry & Geofencing Platform

06/2023 – 11/2023 | Remote, India

- Shipped a workforce tracking app on **React.js**, **Node.js**, **Express.js** and **MongoDB** for **1,000+ field agents**.
- Built the live map interface with **React.js** and **Ant Design**; WebSocket updates and render tuning brought load times down **30%**.
- Cut redundant API calls **45%** by moving client state and caching onto **Redux Toolkit** and **React Query**.

SELECTED PROJECTS

MERN FinTech & Commerce Suite

Full-stack applications with JWT-secured authentication, role-based admin dashboards, and versioned REST APIs built on React, Redux Toolkit, Express, and MongoDB.

STACK: React.js / Redux Toolkit / Node.js / Express.js / MongoDB / JWT

Himalayan Edges E-Commerce Platform

PWA-enabled storefront built on the MERN stack and deployed to AWS, lifting page-load speed and client usage by 30% at a 20% cart conversion rate.

STACK: React.js / Node.js / Express.js / MongoDB / PWA / AWS S3

Real-Time Geofencing & Telemetry Dashboard

Live workforce tracking dashboard streaming GPS coordinates and geofence alerts to a React map view over WebSockets, backed by an Express ingestion API and indexed MongoDB collections.

STACK: React.js / Node.js / Express.js / WebSockets / MongoDB

Role-Based Authentication & Admin Portal

Reusable Express authentication service with password hashing, JWT access and refresh token rotation, and RBAC middleware consumed by React protected routes.

STACK: Node.js / Express.js / MongoDB / JWT / React Router

SUMMARY

MERN stack developer working on national-scale payment and e-governance platforms. React and Redux Toolkit on the front end, Node.js and Express services behind it, MongoDB underneath — currently serving 2 million+ users and 500,000+ transactions a day. Recent wins: MongoDB reads 40% faster after an indexing and aggregation overhaul, and a 99% settlement success rate across AEPS and MATM. Comfortable owning a feature end to end, schema through deployment.

EDUCATION

Bachelor of Technology (B.Tech.)

Kanpur Institute of Technology

2019 - 2023 | Kanpur, UP

SKILLS

FRONTEND

React.js Next.js Redux Toolkit React Query
JavaScript (ES6+) TypeScript HTML5 CSS3
Tailwind CSS Material UI

BACKEND & APIS

Node.js Express.js RESTful APIs WebSockets
JWT authentication RBAC middleware design
API versioning

DATABASE & CACHING

MongoDB Mongoose aggregation pipelines
schema design indexing sharding Redis

TOOLING & CLOUD

Git GitHub GitHub Actions Docker CI/CD pipelines
Jest Postman AWS S3

CERTIFICATIONS

Advanced MERN Stack Developer Certification
Data Structures & Algorithms Certification
Database Systems & SQL Certification
IIT Kanpur Cyber Security Certification

ACHIEVEMENTS

- Graduated with First Class Honors, maintaining top academic rank.
- Earned a 4-Star Gold Badge in SQL on HackerRank.
