

AKHILESH KUMAR MISHRA

PYTHON FULL STACK DEVELOPER | DJANGO · FASTAPI · REST APIS

+91 88580 45785 | makhileshkumar1@gmail.com | linkedin.com/in/akhilesh-kumar-mishra | github.com/GitHub-akhilesh

PROFILE

Python full stack developer focused on asynchronous backends for high-volume FinTech. Django and Django REST Framework where the domain is CRUD-heavy, FastAPI where latency matters, Celery and Redis for whatever belongs off the request path. Currently on services clearing 500,000+ transactions a day for 2 million+ users, streaming live status over WebSockets in under 500ms. Reads the query plan before adding the index.

CORE TECHNOLOGY

CORE PYTHON

Python, Django, Django REST Framework, FastAPI, Celery, SQLAlchemy, asyncio

APIS & SECURITY

RESTful APIs, JWT authentication, OAuth, RBAC, FastAPI WebSockets, API versioning

DATA & MESSAGING

PostgreSQL, MySQL, SQLite, Redis, Celery queues, indexing, partitioning, query optimization

TOOLING & FRONTEND

Git, GitHub, Docker, Linux, Postman, CI/CD, React.js, JavaScript (ES6+), HTML5, CSS3

EXPERIENCE

12/2023 – PRESENT

New Delhi, India

Software Development Engineer

CSC e-Governance Services India Ltd. (MeitY, Government of India)

Ministry of Electronics & Information Technology, Govt. of India

- Moved monolithic web services onto async **FastAPI** and **Django** microservices serving **2 million+** users.
- Scaled AEPS, MATM and VATM orchestration on **Django REST Framework** to **500,000+** daily transactions at a **99% success rate**.
- Cut authentication latency **50%** with **JWT**, **RBAC** and OTP verification.
- Pushed slow work off the request path with **Celery** and **Redis**, clearing **35%** of the backlog that showed up at peak traffic.
- Partitioned and indexed the **PostgreSQL** and **MySQL** schemas, taking transaction query latency down **45%**.
- Streamed live transaction status over **FastAPI WebSockets** — updates land in under **500ms**.

06/2023 – 11/2023

Remote, India

Freelance Software Engineer

Workforce Telemetry & Operations

Real-Time Telemetry & Geofencing Platform

- Built a workforce telemetry and geofencing system on **FastAPI** and async **SQLAlchemy** for **1,000+** field agents.
- Held **99.9% uptime** on the GPS ingestion API while it absorbed **10,000+** concurrent location pings.
- Wired the telemetry dashboard in **React.js** to FastAPI WebSocket endpoints, **30%** quicker to load.

SELECTED PROJECTS

Facial Recognition Attendance System

Automated attendance tracking in Python with OpenCV (Haar Cascade and LBPH) face recognition, MySQL persistence, and Pandas-generated Excel reports.

STACK: Python / OpenCV / Pandas / Tkinter / MySQL

Himalayan Edges Commerce Platform

PWA-enabled e-commerce platform on Django and Django REST Framework, deployed to AWS, lifting page speed and client usage by 30%.

STACK: Python / Django / Django REST Framework / SQLite / AWS / PWA

Async Telemetry Ingestion & Reporting Service

FastAPI ingestion service with Celery and Redis task queues writing to partitioned PostgreSQL tables, plus Pandas reporting jobs over aggregated telemetry.

STACK: Python / FastAPI / Celery / Redis / PostgreSQL / Pandas

Persistent Task Management Dashboard

Python desktop utility for task planning, category filtering, and JSON persistence, structured on a clean MVC separation.

STACK: Python / Tkinter / JSON / MVC

EDUCATION

Bachelor of Technology (B.Tech.) | Kanpur Institute of Technology, Kanpur, UP

2019 - 2023

CERTIFICATIONS

Database Systems & SQL Certification
Data Structures & Algorithms Certification
IIT Kanpur Cyber Security Certification
Advanced MERN Stack Developer Certification

ACHIEVEMENTS

- Graduated with First Class Honors, maintaining top academic rank.
- Earned a 4-Star Gold Badge in SQL on HackerRank.
